Pain Relief for Natural Deliveries

Remifentanyl Disposable PCA Infusion Pump

Working principle

Ariste Health's Disposable Infusion Pumps feature Full Dose Interval and Active Priming. Driven by an elastomeric membrane, it offers accuracy and reliability.

PCA Type

- ✓ Volume: 100ml
- ✓ Full Dose Interval: 2min
- ✓ PCA bolus dose: 0.5ml
- ✓ Suitable for pain management during labour

Technical Information

- ✓ 3µm Particle Filter
- ✓ Latex-free and DEHP-free
- ✓ Kink-resistant infusion tubing
- ✓ PCA bolus dose: 0.5ml
- ✓ EO-sterilized

Product Information

- ✓ Remifentanil Disposable PCA Infusion Pump & Peripheral IV Connector Set
- ✓ Product Code: AH6523C-15N
- ✓ Nappi Code: 1209062001
- ✓ Rate: 0.5ml/2min
- ✓ Pack Size: 10

Remifentanil patient-controlled intravenous analgesia during labour: a retrospective observational study of 10 years' experience

H. Murray, P. Hodgkinson, D. Hughesb
Belfast City Hospital, Belfast, N. Ireland, UK Ulster Hospital, Dundonald, N. Ireland, UK

Intravenous remifentanil patient-controlled analgesia versus intramuscular pethidine for pain relief in labour (RESPITE):

an open-label, multicentre, randomised controlled trial
Matthew J A Wilson, Christine MacArthur, Catherine A Hewitt, Kelly Handley, Fang Gao, Leanne Beeson, Jane Daniels, on behalf of the RESPITE Trial Collaborative Group*
